

Generous contribution to ReStore in memory of Uncle 'Beb'

With the recent passing of Kasmer Lesniak, nieces Joyce and Judy have donated a vast collection of his woodworking and carpentry tools to the ReStore. The collection of meticulously kept tools he treasured can now be passed on to others who will value them as much as he did and put them to equally good use.

Joyce and Judy's uncle, Kasmer Lesniak, affectionately called Uncle 'Beb', had a great passion for woodworking and carpentry. It was a wonderful outlet for his creative and mathematical mind. He loved the solitude of his workroom where he spent much time working on a multitude of projects. He designed and built small pieces of furniture, toys, puzzles, household items, shadow boxes filled with miniatures made from brass fittings -- nothing was beyond his capability. Uncle Beb's passion for creating and building led to an amazing collection of tools which crammed the drawers and shelves in his workroom.

When Joyce and Judy were settling his affairs, Habitat was brought to their attention and they decided to contribute all his tools to our very worthy cause. The ReStore is honoured to accept their very generous and heartfelt donation worth \$15,000. Joyce and Judy are sure Uncle 'Beb' is smiling for what they have done with his tools.
