

Restore Earth Day Sale raises record \$27,000!

The ReStore Earth Day Sale was a great success for Habitat for Humanity Winnipeg and the community as a record \$27,000 was raised through the sale of great items and a fundraising community barbeque. By comparison, an average sales day at the Restore is approximately \$4,000.

Habitat Staff, Elaine Smith and Lori Hessner Unsworth volunteering at the parking lot fundraising barbeque.

The ReStore parking lot was packed with people enjoying the entertainment and great weather while looking for the many great deals to be had. We thank Maple Leaf Foods for providing the smokies, and Patio World for supplying the bark and soil, as well as our other generous donors and staff who helped by volunteering their time for this very special day.

But mostly we thank our special customers. All the proceeds from their purchases offset the administrative costs of Habitat for Humanity Winnipeg enabling all donations to go towards building more affordable homes. The Habitat ReStore, Great prices. Great cause.
