

Dedicated teams keep signing up for the Habitat Adopt-a-Day Program

The adopt-a-day teams are rolling in as we speak! Get your group together and join a great team building experience, working together at a Habitat for Humanity build site. Families and friends, faith communities, work departments, professional associations and community groups have all enjoyed the sense of accomplishment of building a home for a family in need. Each team consists of at least five people donating and/or fundraising a minimum of \$200 each. No construction experience is required but all members must be at least 16 years of age.

Working together for a great cause.

Get your team together to build funds and homes by contacting Kim Wilson at 233-5160 Ext 215 and help make a difference in your community.
