

Muddy Waters Community Cycle beats the heat!

Riders on their way escorted leaving the Forks

On Sunday, August 8th, 324 enthusiastic riders braved the heat and humidity to cycle their selected routes of either, 25 km, 60 km, 100 km or 100 miles. Starting off at The Forks, the Muddy Water's Community Cycle's different routes enabled cyclists of all levels to enjoy a great day of activity while supporting Habitat for Humanity Winnipeg. The Manitoba Provincial Cycling Team members lead the cyclists behind a police escort north on Main Street until the riders separated in the different directions of their selected routes. The well organized day was much appreciated by all cyclists who also received a replenishing meal on their return to the Forks Scotia Stage.

Many thanks to the Muddy Waters Community Cycle committee, our dedicated volunteers and the many great sponsors who all helped make it a great day!
