

Cycle of Hope triumphant return!

*Riders return to build site cheered on by volunteers*

It was with great fanfare that the 39 Cycle of Hope riders returned from their 14 day, 1700 km journey via a police escort which lead them back to the Habitat home they sponsored. The tired but exhilarated cyclists arrived to cheering volunteers at the Habitat Build site and took the time to take part in a brief ceremony. Samuel, Bolaji and their children were present with Samuel giving words of appreciation to the passionate cyclists who raised enough money to build their home. This was the 17th Cycle of Hope and to date the ride has raised over \$2,000,000 for HFHW. We are continually inspired by the passionate cyclists and look forward to another successful event next year!
