

Restore gains \$4,000 from customers showing their metal!

The Habitat ReStore asked its customers and anyone else to come and 'show their metal' at its Metal Drive on Saturday, October 14. Precious metals (copper, brass, aluminum, etc.) were brought to the Restore, everything from old copper pots to barbeques and were recycled to become a precious donation to the ReStore of over \$4,000! Chrissy Troy and 103 FM showed up to encourage more donations while the radio campaign created great awareness of all the qualifying donations accepted at the ReStore. Many thanks to everyone who 'showed there metal'! All proceeds go to Habitat for Humanity Winnipeg.
