

Planet Echo TV series films episode with show's hosts building at the Greenest Affordable Housing Development in Canada.

Winnipeg, MB, May 4, 2011 – On Thursday May 5th, Planet Echo hosts Chuck and Andy are being filmed in Winnipeg, helping to construct a home alongside high school volunteers from 9 a.m. until noon. The TV series is about protecting and helping the environment so filming at the greenest affordable housing development in Canada is fitting for the hosts' latest adventure.

The filming takes place at the south Nairn Avenue Habitat build site across from Dufresne Furniture. From downtown, turn left at Chester Street, right on McCalman Avenue and right at the first back lane for access to the site.

Access onto the Habitat build site requires the proper safety gear (hard hat and CSA approved boots). A random selection of hard hats and boots are available at the build site on a first-come, first-serve basis.
